

Course Code & Title	LISS237A Geographic Information Systems (GIS) and Spatial Analysis 1				
Convenor(s)	Giulia Tozzi				
Institution	QMUL	Department	Economics		
Academic Year	2023-24	Term	Spring/Summer		
Number of sessions	2	Research Platform	Quantitative Research (QuT)	Length of Session(s)	4h (of 11h)
Day, Date		Start : End		Room Location	
Monday 3 June 2024		13:00 – 17:00		TBC	
Enrolment Links:	Available to book on SkillsForge from Tuesday 2 April 2024 . Click to log in and register: https://training.kcl.ac.uk/kcl/#he/dev/eventDetails;em.providerCode=LISS,providerOrgAlias=kcl,number=237A; Questions? Course Description:

The course presents and provides an overview of Geographic Information Systems and their usage across disciplines. It introduces the technicalities related to the construction and use of geographic data (using ArcGIS software). The course provides the students with an introduction on the software itself and an overview on visual creation and interpretation of geo-data (and associated maps). This course will be followed by a second and more advanced course on the topic (*Geographic Information Systems (GIS) and Spatial Analysis 2*).

Reading List:

A bibliography with full references will be distributed in class, while for the use of ArcGIS the reference handbook will be provided by the instructor. Additional material (data/codes/etc.) will be distributed.

Eligibility:

The course *Geographic Information Systems (GIS) and Spatial Analysis 1* requires basic knowledge on data management and analysis. The current interdisciplinary usage of GIS tools make it interesting and useful for research students in many fields from humanities (e.g. history) to social sciences (e.g. economics) and natural sciences (e.g. bioscience).

Pre-course preparation:

Prior to starting the course, students will need to download the software used throughout the course (ArcGIS). This will require an academic license.

Number of students:

Minimum number required to run: 2

Maximum number of places available: 100 (zoom platform boundary)
